PROFILE SUMMARY

Full Stack MERN Developer with hands-on experience delivering 5+ production-ready applications. Skilled in MongoDB, Express.js, React.js, Node.js, REST APIs, and real-time apps (Socket.io, WebSockets). Improved site performance by 30%, boosted user engagement by 25%, and deployed secure, scalable apps to Netlify, Vercel & Render.

EDUCATION

S.M.B.S.T. College , Sangamner   **2022 − 2025**
Bachelor of Computer Applications (BCA) - 7.52 CGPA   *Sangamner, Maharashtra*

EXPERIENCE

Frontend Developer Intern   **May 2025 − Jul 2025**
Packers Movers Pvt. Ltd. -   *Pune, Maharashtra*

- Engineered a responsive UI, adding 5+ new sections/forms, increasing user engagement by 25%.
- Optimized site performance, reducing page load speed from 4.2s → 2.8s (30% faster).
- Deployed SEO strategies that improved organic traffic by 20%.

PROJECTS

Code Reviewer ⧉ | React.js, Node.js, Express.js, MongoDB, CSS3   **Aug 2025 - Sep 2025**

- Built an AI-powered code review tool to analyze readability and maintainability.
- Integrated a multi-language converter, enabling Java to be translated into Python, C++, Rust, and JavaScript.
- Unified review + conversion into a single platform, cutting manual effort by 40%.

Real-Time Chat App ⧉ | React.js, Node.js, Express.js, MongoDB, Socket.io   **Jan 2025 - Feb 2025**

- Architected a real-time messaging app using WebSockets, supporting many concurrent users.
- Implemented JWT authentication and MongoDB for secure user data management.
- Achieved 99.9% uptime on deployment.

Gemini Clone ⧉ | React.js, Fetch API, CSS3   **Dec 2024 - Jan 2025**

- Designed a functional clone of Google Gemini with a modern UI.
- Integrated real-time API calls for AI-based responses.
- Delivered dark mode UI, improving accessibility for 100% of test users.

TECHNICAL SKILLS

Languages & Backend: JavaScript (ES6+), Node.js, Express.js, MongoDB, REST API, JWT
Frontend: React.js, Redux, Context API, Tailwind CSS, Bootstrap, Webpack
Security: JWT Authentication, OAuth, Role-Based Access Control (RBAC)
State Management API Handellig: RESTful API, Fetch API, Axios, JSON, WebSockets, Local Storage
Version Control Deployment Git, GitHub, GitHub Actions, Netlify, Vercel

CERTIFICATIONS

- JavaScript Bootcamp - LetsUpgrade

Achievements

- Deployed 5+ full-stack projects with responsive UI and secure backend, earning 95%+ code review approval.
- Built a real-time chat app with WebSockets + JWT, ensuring 100% secure messaging.
- Recognized by mentors for resolving complex technical issues that reduced bug backlog by 30% and delivering projects 20% ahead of schedule.
